Among the numerous discoveries Science has made in this generation to facilitate the business of life, increase its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt that no medicine or combination of medicines yet and comfortably. known can so surely control and cure the numerous varieties! of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a remedy has at length been found which can be relied on to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures affected by its use, but we would present the following opinions of eminent men, and signed, at Castle Haynes, on the North East River, or for refer further enquiry to the circular which the Agent below her confinement in New Hanover Jail, or any other Jail in name I will always be pleased to furnish free, wherein are full particulars and indisputable proof of these facts.
